

CUSTOMER SERVICE BULLETIN

Radio Shack® CUSTOMER SERVICE BULLETIN

400 Atrium—One Tandy Center, Fort Worth, Texas 76102

Bulletin No.	4503-18 (Correction 1)
Description	Payroll
Model	Model II
Stock No.	26-4503 Version 1.1
Date	Feb. 22, 1982
Page 1 of	4

Problem

In order to accomodate the Disability Withholding requirements for California, New Jersey and Hawaii, the following changes are required. There are quite a number of changes required. However the majority of them are minor.

Solution

After the modification, the setup in "Other Rates and Limits" will operate as follows:

1. If the basis is units worked, enter dollar amount per unit under RATE (as always) then leave the limit zero. For the new line (11-supplemental Benefits Basis) enter a "U" for Unit basis.
2. If the Basis is a percentage of taxable wages, enter the percentage (eg .6) under RATE and then any applicable maximum under LIMIT. In line 11, enter a "G" for the basis (% of gross).

Do the following in order to incorporate the changes.

1. Backup the diskette(s) and make the changes on the Backup copy of the program
2. In BASIC load the program by typing LOAD"CHNGCO".
3. Make the following changes:

7. Type SAVE"INPUT" to save the changes to the program.
8. At TRSDOS Ready, make a backup copy of the corrected diskette.

*NOTE: Line 1063 sets up which of the 9 categories for earnings are taxable for disability and which are not. "X" means Taxable for disability. "N" means Non-Taxable for disability. Therefore, if all 9 were taxable 1063 would read P\$(Ø)="XXXXXXXXXX". If they were all exempt 1063 would read P\$(Ø)="NNNNNNNNN".
