PRODUCT NEWS

The following information is provided by Technical Support,
Computer Customer Service, and Computer Merchandising.

TANDY IBM COMPATIBLE PRINTERS

The IBM printer emulated by the DMP-430 (26-1277), DMP-2100P (26-1274), and TRP-100 (26-1275) is the IBM Graphics Printer. Any software used by the customer should have such a driver. IBM has sold several matrix printers, all of which have some inconsistencies between them.

The graphics printer has the most features, largest character set, etc. It is probable that only the more complicated packages will take advantage of these differences. That is to say that most applications written for the Epson MX80/100 will work. The specific IBM graphics driver will only be required in applications making extensive use of bit image graphics.

BIS-3270 & BIS-3780 (26-5259 & 26-5258, 05.02.00) - PRODUCT INFORMATION

BIS-3270 and BIS-3780, two communications packages for the Tandy 2000, are now available from TEW.

Two areas of operation of BIS-3270 which are not problems but which may be construed as such are as follows:

1. When a printer used with this software becomes not ready (off line), the software appears to "hang". This is because the MS-DOS printer driver will wait for a period of time (approximately one minute) before issuing an error to this software which results in a "BIS-029 printer I/O error has occurred, enter 'Y' to abort or 'N' to continue" message. Correction of the printer status condition during the time out period or answering the BIS3270 error message with the appropriate response results in no loss of data to the user.
2. In command mode, if the user types a syntactically correct command and inadvertently hits any arrow key during the input, the command is not accepted and a command syntax error is reported to the user. The user then must retype the command to continue. This situation will be changed in future versions of this software.

The above applies to both BIS-3270 and BIS-3780. These products make extensive use of MS-DOS system calls. When any condition results in a MS-DOS message being displayed on the screen ending with the phrase "Abort, Retry, or Ignore", an answer of "A" will result in the user being returned to the MS-DOS command prompt instead of the application as expected. This will be changed in future versions of the software.

TANDY 2000/1200 HD/1000 SOFTWARE LINEUP

The following MS-DOS software lineup chart should assist you in selecting the right packages for your customers. NOTE: Not all of these packages are available at this time.

PRODUCT	CAT. NO.	HDWR	DESCRIPTION
<u>DATABASE</u>			
PFS:File	25-1140	1000	Easy-to-use database manager
	25-3161	1200	
	26-5305	2000	
PFS:Report	25-1141	1000	Report-writer for PFS:File
	25-3162	1200	
	26-5306	2000	
Friday!	25-1149	1000	Database application using menus
dBASE III	25-3190	1200	Relational database with menu-driven front-end and command language
dBASE II	26-5352	ALL	Relational database using command language
<u>WORD PROCESSING</u>			
Homeword	25-1116	1000	Product designed for home use; uses icons to simplify user interface
Homeword Speller	25-1119	1000	Spelling dictionary for Homeword
Wordstar	25-3170	ALL	product includes dictionary
PFS:Write	25-1142	1000	Easy-to-use word processor that shares the PFS:series
	25-3163	1200	
	26-5309	2000	
Microsoft Word	25-1153	1000	Word processor with graphic interface
	26-5314	2000	
Multimate	26-5330	2000	Word processor similar to dedicated word processor
<u>SPREADSHEET</u>			
PFS:Plan	25-3164	1200	Spreadsheet only; designed for ease of use; part of PFS:series
Lotus 1-2-3	25-1145	1000	Includes spreadsheet, graphics, and database
	26-5300	2000	
SuperCalc3	26-5302	2000	Similar to Lotus 1-2-3
Multiplan	25-1152	1000	Is available on other Tandy computers.
	26-5311	2000	Different versions have different features.
<u>INTEGRATED PRODUCT</u>			
Deskmate	25-1000	1000	Integrated product designed as an introduction to computing
	25-3166	1200	
	26-5316	2000	
Framework	25-3160	1200	Aimed at manager who creates projects that require word processing, database, graphics and communications
Symphony	26-5304	2000	Includes superior spread sheet, database, word processing, graphics, and communication

TANDY 2000/1200 HD/1000 SOFTWARE LINEUP (continued)

PRODUCT	CAT. NO.	HDWR	DESCRIPTION
<u>GRAPHICS</u>			
Graphwriter	26-5276	2000	Superior output in a variety of chart forms
DR:Graph	26-5278	2000	Easy to use business graphics
DR:Draw	26-5279	2000	Drawing program for freehand sketching or facilities planning
PFS:Graph	25-1143	1000	Easy to use graphics, more limited choices,
	26-5307	2000	part of PFS:series
Microillustrator	25-1120	1000	Free-hand sketching program
<u>ACCOUNTING</u>			
Quartet	25-1148	ALL	Includes ledger, sales, payments and payroll
General Ledger	26-5210	2000	Full-featured ledger
Accounts Payable	26-5212	2000	Full-featured payables integrates w/ 26-5210
Accounts Rec.	26-5213	2000	Full-featured receivable integrates w/ 26-5210
Inv. Control	26-5214	2000	Full-featured inventory integrates w/ 26-5210
Payroll	26-5218	2000	Full-featured payroll integrates w/ 26-5210
<u>PERSONAL MANAGEMENT/INVESTMENT</u>			
Home Acnt +	26-5340	2000	Designed for home financial management
<u>EDUCATION</u>			
Facemaker	25-1100	1000	Teaches programming skills
Kids on Keys	25-1101	1000	Improves verbal skills
Kindercomp	25-1102	1000	Teaches shape, color, and number recognition
Fraction Fever	25-1103	1000	Develop an understanding of fractions
Alphabet Zoo.	25-1104	1000	Teaches verbal skills
Kidwriter	25-1105	1000	Allows child to use computer tools to create a story
Trains	25-1107	1000	Provides understanding of economics of work world
Pipes	25-1108	1000	Provides understanding of economics of factory
Wiz Type	25-1114	1000	Teaches typing in a game format
Learn /w Leeper	25-1118	1000	Teaches shape, number, and color recognition
<u>ENTERTAINMENT</u>			
Demon Attack	25-1110	1000	Arcade game
One on One	25-1111	1000	Basketball simulation
Pinball Const.	25-1112	1000	Pinball game with option to construct the pinball machine
Lode Runner	25-1113	1000	Arcade strategy game
B. C.'s Quest	25-1115	1000	Arcade game
King's Quest	25-1117	1000	Graphic and text adventure game
Cutthroats	25-1121	1000	Text game
TD Football	25-1123	1000	Football simulation
Witness	26-5376	2000	Mystery text adventure game
Planetfall	26-5377	2000	Science fiction text adventure game

EXPRESS ORDER SOFTWARE

EXPRESS ORDER SOFTWARE TANDY 2000 SOFTWARE MEMORY REQUIREMENTS

Most Tandy 2000 Express Order Software programs require a minimum memory of 256K, unless otherwise indicated in the Directory of Reviewed Software. Accounting Partner I (90-0112) requires only 128K on the Tandy 2000. However, EasyWriter I System (90-0115) is listed as requiring only 128K but it actually requires 256K. This discrepancy in the Directory will be corrected.

R:Base 4000 (90-0136), R:Base XRW (90-0138), R:Base Clout (90-0271), and AutoCad (90-0181) all require 384K. Please be aware of these requirements and advise your customers accordingly.

EXPRESS ORDER SOFTWARE PRODUCT DESCRIPTIONS

Detailed Descriptions of products with the "In Stock" status may be found in the Express Order Software section of the "Directory of Reviewed Software". A catalog and other promotional materials will be available in the near future.

We are aware that we are running behind in getting descriptions to you for the EOS section of the "Directory of Reviewed Software". We are attempting to rectify the problem. Please make sure you are updating your directory regularly. You and your customers will find the information valuable.

EXPRESS ORDER SOFTWARE DEMOS

Everyone should be aware that unless otherwise stated from EOS or a particular VENDOR, demos of EOS software are NOT to be given, sold or copied for customers. Some VENDORS have been providing you with full blown copies for in-store demos....They are NOT to be sold, given or copied for customers either.

GREAT PLAINS HARD DISK ACCOUNTING SOFTWARE - WITH THE TANDY 1000

If a customer wants to run Great Plains Hard Disk Accounting software on their Tandy 1000 they must have at least 256K.

SOFTWARE PRODUCTS, INC. - NEW CUSTOMER SUPPORT NUMBERS

Software Products Incorporated, the vendor for Open Access (90-0114, 90-0178, 90-0247) has new customer support lines.

800 521-3511 National WATs

800 621-7490 California WATs

SOFGRAM (90-0194) - MODEM COMPATIBILITY

Please be aware that SofGram, Xenix communications package, currently does not support Radio Shack's modems, it is HAYES compatible.

BETTERBASIC (90-0225) - 8087 MATH MODULE

An 8087 math module (for the Tandy 2000) will soon be available for this package. We will keep you posted.

GOOD SOFTWARE, INC. - NEW CUSTOMER SUPPORT NUMBERS

Good Software, Inc., the vendor for Investor III (90-0237), Amortizer III (90-0238), and Let's Talk (90-0239) has new customer support lines.

800 272-GOOD National MATs

800 239-6085 Texas MATs

THE ULTIMATE (90-0241) - SPECIAL OFFER

The Ultimate, an integrated system for the MS-DOS computers, is now available at a special low price of \$69.95 as opposed to the regular retail price of \$149.50. This special price is scheduled for the next 90 days.

T/MAKER (90-0272) - NEW MODEL 4 VERSION

T/Maker for the Model 4 is now available running under TRSDOS 6.x. The CP/M Model 4 version (90-0128) has been discontinued.

MECA - NEW CUSTOMER SUPPORT NUMBER

MECA, the vendor for Managing Your Money (90-0278) has a new customer support line: 800 631-MECA. Stores may use this same number, BUT ask for Karen Crisalli. Please do not refer your customers to the phone number published in previous Updates.

EXPRESS ORDER SOFTWARE PRODUCT AVAILABILITY

The following is a list of new and future EOS 90-series numbers for Computer Software. The date under STATUS is when you can expect TEW to ship a new order.

NOTE: These products are listed in alphabetical order by product title.

 CSR GRAPEVINE

As indicated by the name, "Grapevine", this section is where Customer Service Representatives share information with each other. It is here you can communicate your latest findings and "bits of wisdom" to all CSR's. If you wish to contribute to the CSR Grapevine use the Submission Form attached to the last Update of each month, or send your information to CompuServe ID number 70007,535. Please be sure to include your Name and Store Number.

NOTE: We attempt to separate fact from fiction but not being omniscient we may occasionally goof. If so, let us know about it. We'll gladly correct ourselves.

WARNING: The information contained in the CSR Grapevine is made available on an "as is" basis for the use of store personnel only. Much of the information will not be supported by Computer Customer Service and in no way shall Tandy Corporation be responsible for any problems caused by the use of this information.

All articles which do not include a by-line came from Computer Customer Service

FP-215 PLOTTER (26-1193) - MISPRINT OF STEP SIZE RATE IN CATALOG RSC-14

RSC-14 shows the specifications for the FP-215 Plotter with a step size rate of 1mm. The correct step rate as listed in both the Owner's and Service Manual for the Plotter is 0.1mm.

(S. GOTTWALD 01-7679)

DT-100 (26-6052) - QUICK REFERENCE GUIDE MISPRINT

The DT-100 Data Terminal Quick-Reference Guide states on page 1:

"This Quick-Reference Guide is a condensation of the DT-100 Data Terminal Reference manual."

This statement is misleading customers who may infer that there is a full-blown reference manual available for the DT-100. This is not true. The Quick-Reference Guide is the only manual available for the DT-100.

(R. RANDALL 01-7679)

MOLEL III HOME ACCOUNTANT (26-1511.01.00.00) - EDIT CATEGORIES

In Home Accountant, if you try to edit an Actual field which contains nothing but zeroes, you cannot edit the field (SPR #1511-001). The user would need to have previously set up Dummy Transactions fields to input the changes. Currently there are no plans to fix this problem nor re-release the package.

(S. GOTTWALD 01-7679)

PROFILE 4 PLUS (26-1636.01.00.00) - 'OUT OF DISK SPACE' ERRORS

Building extended indexes never prompts you for a drive to store it on. Profile places the index on the drive where the filename/map file resides. Moving the filename/map file to an empty disk or data disk with space on it will eliminate 'out of disk space' errors. This is not documented in the Profile 4 Plus Manual.

(B. OLSON, 01-7879)

PROFILE 16 (26-6412) - WITH THE DELL SHEET FEEDER

Use the following settings in Profile 16 "Define output" and on the sheet feeder

For 8 1/2" x 11" paper, in request output specify:

Number of lines per page: 78

Number of lines to print: 54

Set the sheet feeder on setting # 19.

For 11" x 14" paper, in request output specify:

Number of lines per page: 108

Number of lines to print: 74

Set the sheet feeder on setting ".."

When defining the report make sure to start all field indicators at position 35 to achieve a decent left margin.

Also, familiarize yourself with the operation of the feeder as to resetting and positioning paper otherwise improper page feeds will result.

(W. HAYES, 01-7879)

PROFILE 16 (26-6412) - USING THE "@RN" FIELD

Using the "@rn" field indicator prints the record number on the report, however it will use 8 characters and will right justify the number. To avoid this use the following processing line in your output table:

If:

Then: x(8,\$)-@rn;y="" ;a=y<x

Instead of "@rn" on the report, use "@a".

(W. HAYES, 01-7879)

TANDY 2000 MS-DOS 002.11.02 - MAILLIST PROGRAM

Tandy 2000 BASIC Maillist Program has problems with skipping records when adding the 30th record. Each record should be changed to contain 128 bytes instead of 126 because BASIC stores data in 128 byte blocks. The values in the lines below should be changed to read:

```
25 ' 128 RECORDS
6040 LEN = 128
6060 RECSIZE % = 128
```

(W. ARNOLD, 01-7879)

MAI GENERAL LEDGER (26-5210, 01.00.00) - RECURRING JOURNAL ENTRY REPORT

When only one page is required for the Recurring Journal Entry Report, the program advances to the top of the next page, prints the report heading and stops. The second page is also numbered 1. This problem will be corrected in the next release version (SPR #5210-008)

(C WESTENHISER 01-7879)

MAI GENERAL LEDGER (26-5210, 01.00.00) - WITH THE F1 KEY

When a transaction is inquired using the F1 key, the amount is changed from a credit to a debit, or a debit to a credit. This is because the F1 key is intended to be used to change the sign of a posting. This undocumented function allows the user to easily change the debit or credit status of the transaction. This prevents any transposition of numbers or typing errors.

(A STINE 01-7879)

MAI ACCOUNTS PAYABLE (26-5212, 01.00.00) - ERROR 47

When setting up and entering parameters, if you say 'Y' to Interface with General Ledger and press F6 for LIST, it will result in an Error 47 in line 2220 in program AP1SWA.

For now select A/P Parameters and allow General Ledger to be linked, then get a hardcopy (LIST) of the parameters. (SPR #5212-008)

A STINE 01-7879

TANDY 2000 LOTUS 1-2-3 (26-5300) - WITH PTC-64 PRINTER CONTROLLER (26-1269)

The PTC-64 Printer Controller is not supported in conjunction with Lotus 1-2-3 on the Tandy 2000. Although this combination will work, the user will not necessarily gain control at the keyboard before the graph is completely printed.

(R. RICHARDS LUDWIG 01-7879)
