Problem

After entering last expense account transaction an error message occurs. This happens only with data in certain order. In line 6Ø4Ø there is a NEXT without a FOR.

Solution

The problem is corrected by following the steps listed below.

1. Backup the tape(s) or diskette(s) and make the changes on the Backup copy of the program.
2. In BASIC load the program by typing CLOAD if tape or LOAD"TRANS" if disk.
3. Make the following corrections:
